

Pediatric Shared Decision Making Questionnaire – NURSE (PSDM-Q-NUR)

In responding to the statements below, please think about a situation where you spoke with a parent in making a nursing care decision about their child's care. One example could be a discussion about route and type of medication to administer.

Describe the situation in which you spoke with a parent about making a nursing care decision about their child's care:

Describe the decision that was made:

Nine statements related to the decision-making in the above-mentioned situation are listed below. For each statement please indicate how much you agree or disagree.

1. I made clear to my patient's parent that a nursing care decision needs to be made.

completely disagree strongly disagree somewhat disagree somewhat agree strongly agree completely agree

2. I wanted to know from my patient's parent how he/she wants to be involved in making the nursing care decision.

completely disagree strongly disagree somewhat disagree somewhat agree strongly agree completely agree

3. I told my patient's parent that there are different nursing care options for caring for his/her child.

completely disagree strongly disagree somewhat disagree somewhat agree strongly agree completely agree

4. I explained the advantages and disadvantages of the nursing care options to my patient's parent.

completely disagree strongly disagree somewhat disagree somewhat agree strongly agree completely agree

5. I helped my patient's parent understand all the information.

completely disagree strongly disagree somewhat disagree somewhat agree strongly agree completely agree
